(Categories: 2017-2020, 2018-2020, 2016-2019, 2017-2019, 2015-2018, 2016-2018)

Incubation Centre

The full-fledged incubation centre helps to impart the needed skills among students, to make them equipped for the industry. They can either opt to become a professional in a company or they can start an enterprise on their own. All the needed support and assistance are offered by the incubation centre.Special work spaces are offered for students' start-ups at the incubation centre.

Entrepreneurship - The Core Focus

Entrepreneurship has been identified as a core specialization for Marian MCA. We equip students for challenges which are not yet known. We have specific methodologies to impart and nurture entrepreneurship skills among students. Students can avail support and mentoring from IT industry experts of diverse streams like programming, Networking, IT security IMS and a lot more. Eligible students are offered scholarships to continue their start-up assignments. State of the art IT workspaces are also offered at the incubation centre.

However, to be groomed as a successful entrepreneur needs a lot of skills and capabilities, especially for a fresh graduate. We have identified these aspects and have included all the needed hard skills as well as soft skills into our syllabus.

Real-time industry association and presence of faculty members from the industry further enhances our vision.

Industry Experience while still in the campus!

Yes, at Marian MCA is not just limited to an academic course where as students are learning core skills and working on real-time projects simultaneously.

Industrial tie-up with IT Companies

- Make the curriculum industry driven.
- Facilitate training in market driven upcoming technologies
- Offer live projects for students
- Help the students to interact with the people from industry on a regular basis
- Create an industry-ambience in the campus.

International Certification & Other Training Programmes

Marian MCA provides International certification programmes, Training on emerging technologies with live projects, Personality and employability skills enhancement programs throughout the course to equip the students for placements in addition to regular syllabus.

MCA @ MARIAN

Creating Professionals - Creating Values

A power packed, industry centric Post Graduate programme in Computer Applications, envisioned to Equip students to face real time Industry challenges and to mold them as readily employable candidates on a global perspective.

MCA @ MARIAN

The Master of Computer Applications program at Marian College Kuttikkanam carves out not only technically perfect computer professionals but also technocrats of highest managerial skills. A Marianite needs no special training to take up job positions in the ever expanding IT sector, which demands a clever blending of technology with manpower management.
Throughout the program, emphasis is given to see that students develop the skill to integrate their technical know-how with the changing modes of the industry applications. The students get ample opportunities to have firsthand experience of the latest developments in the industry through the regular academia-industry interface programs.

Industry Exposure of Faculty

Marian College Kuttikkanam epitomizes the unwavering visionary zeal and mission objectives of the Catholic Diocese of Kanjirapally. It is an aided college affiliated to the Mahatma Gandhi University of Kerala. Founded in 1995, Marian is nestled in the Sahyadri ranges of South India, neighboring the Lake Resort of Thekkady. Ever since its inception, Marian, through farsighted management, has evolved innovative practices in education and social service rewriting the socio-educational profile of the highland district of Idukki.
On account of the novel patterns and practices introduced in the world of higher education, Marian College has been commented to be an 'institution with a difference', driven by its reformist vision and enduring passion for excellence. Distinctive for its course-mix, infrastructure and facilities, Marian is blessed with a pleasant climate and surrounded by picturesquely beautiful landscape.

Our focus on student excellence starts right from defining the syllabus. We have included novel technologies into the curriculum based on various scientific studies conducted by NASSCOM and IDC. All these efforts directly translate into enhanced career scope for the students who graduate from our campus. Presently we mainly focus on career areas like

DATA ANALYTICS	MACHINE LEARNING	ARTIFICIAL INTELLIGENCE	MOBILITY
IMS (Infrastructure Management Services)	CLOUD COMPUTING	AUTOMATION	ENTREPRENEURSHIP & SOCIAL MEDIA

We have established a core team of Academic experts to revise and amend our curriculum on a periodic basis. The academic core team is headed by Dr. N. Jayasankaran Former VC, Kanchi University

UNIQUE AND BEST PRACTICES

Our exemplary class-timings from 8.30am to 1.30pm, ensures 'Smart Time Management', thus offering students with more 'quality time' for International Certifications, Internships, Earn-while-learn options, Academic Research, as well as for launching startup ventures, from the first semester of the course itself. Every minute they spend at the campus will be productive and focussed on Industry centric approach.

'Executive power- dressing' gives an air of confidence.

Outreach- This project includes social projects to help the poor and the needy. Orphanage visits, houses for the needy, blood donation, e-literacy campaigns etc are organized.

Walk 'n' Talk - As a part of our innovative practices we are conducting a Walk 'n'Talk programme once in a semester, so as
to provide an open house for students with their teachers, enjoying the serene cool ambiance of Kuttikkanam.

> We have our Alumni successfully placed in prominent companies spread across all the Continents.

At Marian,students get an opportunity to focus and specialize on any of the core areas and plan their career accordingly. The world of Information Technology is fast changing and we need to prepare our students for jobs that don't yet exist, using technologies that haven't been invented, in order to solve problems we don't even know are problems yet.
At Marian our focus is to stay futuristic and to make students prepared for resolving the industry challenges.
