Online Education

1. Does all programs/courses were completed on time.	Yes

2. Measures taken to complete the syllabus of courses and programs.	Autonomy helped Marian to design appropriate teaching, learning, and assessment methodologies to meritoriously transform the learners. Assessment activities are streamlined into CARS (Continuous Assessment for Research Skills) and CADL (Continuous Assessment for Deepening Learning). Teachers started giving student-centric, ICT-enabled, innovative teaching practices and assessment activities. Marian had been using Moodle LMS as a teaching-learning and evaluation tool since 2012 for continuous assessments. To improve the efficiency and to overcome the locational disadvantage, the College wanted to develop a question paper automation system for final assessments. Innovative and collaborative assessment activities like Lesson, Wiki, Forum, and Databases are used as teaching-learning activities. These tools provide a more participative learning experience for the students. Sharing resources through Moodle has become a sustainable practice to reduce the use of paper in terms of study materials and answer papers. Turnitin was integrated with Moodle to ensure academic integrity and ethics which enforced academic integrity among students and teachers. Other Learning applications like Mentimeter, Padlet, and the uReply learning system of Chinese University of Hong Kong were integrated with Moodle to provide an engaging learning environment for the students. A complete ERP (mcka.in) solution for Marian was developed in-house which takes care of all teaching-learning and assessment activities starting from admission to final assessment. Assessment of learning outcomes is also taken care of by the system. The same system automates all activities of the Controller of Examinations. Marian uses a location-based learning management system that can ensure the active participation of students in remote field activities, extension works, and academic projects. During this period of the COVID pandemic, our teachers and students were able to migrate to completely online platforms seamlessly. During the pandemic period, Marian has become a resource centre for teachers through our online MOOC Courses and webinars. More than 25,000 teachers attended the training programmes offered by our teachers all over India. A question paper automation system using question banks was developed using internal resources which was a relief to the College to prepare quality question papers in spite of its locational disadvantages. Once the quality of questions in the question bank is ensured by external experts, the system can generate question papers based on Bloom's Taxonomy and difficulty levels set by external experts. The system enabled the College to conduct more examinations like Save a Semester for failed students. This was a great relief for underprivileged and slow learners. An Examination Calendar for the academic year is published well in advance and is made available for teachers, students, and parents. The complete schedule of examinations like the commencement of continuous assessments, seminars, assignments, semester-end examinations, publication of results etc. is provided in the calendar. LMS platforms are utilized for conducting CA tasks. Evaluation of these components is linked to the POs and PSOs. Students are given permission to verify the marks of their internal components online. Strict adherence to the calendar is made mandatory for all the concerned.
3. The period of delay in completion of syllabus (in months).	0
4. The period of delay in conducting exams (in months).	0

Portal Name	No. of students offered online courses which have credit transferred to transcript	Total no. of online courses which have credit transferred to the transcript	Total no. of credits transferred to transcript
Swayam	32	10	0

5. No. of courses developed and available online on Swayam platform by your institution faculty	0

Financial Resources: Utilised Amount for the Capital expenditure for previous 3 years
