The upcoming IDE & A National Seminar, co-organized by Vathil Foundation and Marian College Kuttikkanam Autonomous, in partnership with Mozilla's Responsible Computing Challenge, centers on "Equitable Digital Access for Persons with Disability." The seminar underscores the transformative power of technology in empowering individuals with disabilities. Featuring eminent speakers and supported by diverse entities, the seminar is set to delve into the intersection of AI, digital accessibility, and disability.

Key themes include "The Role of AI in the Transformation of Digital Accessibility" and "Media and Disability." The seminar aims to explore the advancements in AI that enhance digital accessibility and scrutinize the media's role in shaping disability perceptions. Interactive workshops, panel discussions, and live stories are designed to offer a comprehensive understanding of disability, emphasizing empathy and deeper insight through simulations and real-life experiences.

The IDE & A Seminar promises an immersive and transformative experience, advocating for a more inclusive approach to technology and media. It's an essential convergence for IT professionals, media and journalism experts, social workers, legal and engineering professionals, disability advocates, and activists, offering a unique platform to engage, learn, and contribute to creating a more inclusive world for people with disabilities.
